- ▣ Construction

Excerpt from References. **Industries.**

- Steel and Iron
- Cement
- Zinc and Aluminium
- Lime
- Wood-based panel
- Glass
- Waste Incineration Plants
- Power Plants
- Ceramic

Advantages of the Deployments. ● Of our Employees.

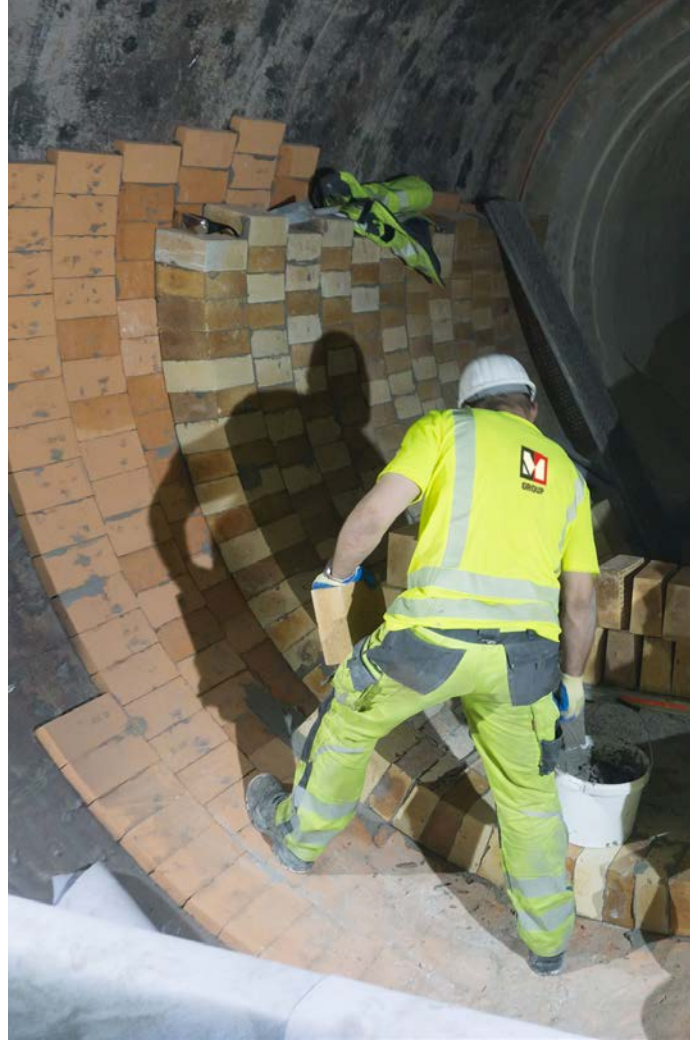

- We only employ own qualified staff and do not work with other subcontractors. This ensures a good, consistent quality of work. Depending on the effort and scope of the work, special teams are put together for the installation.
- All employees are regularly trained by the M-Academy or other institutions.
- All employees have a regular health check.
- Short-term assignments e.g. for emergency repairs or similar are also available after consultation.

**Mandatory Reporting Requirements
for the Deployment of Personnel:**

For all our employees we comply with 100 % of the mandatory reporting requirements, this applies to all assignments at home or abroad.

Health and Safety at Work:

The continuous improvement of occupational safety on our construction sites is the most valuable asset of the M-Group.

Within the framework of our overall concept for your construction project, the provision of first aiders, constant compliance with the safety regulations of your plant and regular training of all employees with regard to occupational safety are included as standard.

Furthermore, the support of our own safety specialists and safety officers is a matter of course.

Equipment and Machinery.

Thanks to our own equipment and machinery, we are able to handle projects completely independently.

Here are some examples of our machinery and equipment:

- Demolition robots
- Shotcast machines
- Refractory mixers, gunning machines, toolboxes, small tools etc.
- DAT devices
- Suspended platforms

Material Supply:

Being a member of the M-Group enables us to provide you with a wide range of refractory materials. At present, we have approx. 3,500 tons of refractory material and accessories in stock so that short-term deliveries are no problem.

M-Group: Based in Lemgo. **At home in the world.**
